## Memorandum

**Date:** May 2, 2014  
**To:** Ken Beeler, Construction Manager  
**From:** Nathan Hudgens, Resident Project Representative  
**RE:** Lakewood Water & Sewer Replacement & Rehabilitation  
MWS No. 10-SG-0083  
CWNOAP No. EAP.C.10.01

### **Night work to install water line appurtenances:**

This memo shall document the work to be performed per Metro Water Service by Blakley Construction and their subcontractor on Sunday 4 May 2014 during the hours of 9 pm – 5 am.

The below appurtenances are being installed as a result of a limited number of existing valves in the Community that can be utilized during a water system shutdown. Currently, if a water system shutdown was implemented, it would affect the entire Community as a whole. However, after the scheduled work is performed, the system will be split in half and therefore affect less residents should a system shutdown be required.

The work to be performed will consist of installing two (2) six-inch water valves, one (1) four-inch water valve , and one (1) fire hydrant assembly.

The following representatives will be on site to observe the work being performed:

  
Jeff Duncan – Metro Public Works  
  
David Boyd – SBW Constructors  
  
Nathan Hudgens – CWN RPR

  
John Sullivan – Metro Pubic Works  
Richard Southerland – SBW Constructors

**cc:** On-site reps.
